COUNTY DEPARTMENT AGENDA REQUEST

Department/Division: Fire and Emergency Services

Department Head: M. Allen McCullough

Presenter, if needed: M. Allen McCullough

Preferred Meeting Date: Wednesday, April 2, 2008

Wording for the Agenda:

Fire and Emergency Services is seeking permission to apply for a Federal Fire Act Grant in the amount of $95,537.

Background/History/Details:

Fire and Emergency Services is seeking permission to apply for a Fire Act Grant in the amount of $95,537.

$65,550 will pay for the SCBA- Haz-Mat Confined Space Maze System. This system will be used to train new and incumbent personnel, while using their breathing apparatus, to do search and rescue and for firefighter survival in confined spaces.

$29,988 will pay for the Difficult Airway Course. This request is for educational costs for 72 Fire and EMS personnel to attend the difficult airway course by the Airway Management Education Center. This education opportunity will provide staff with both technical and manipulative education in the assessment and control of the adult and pediatric airway. The class will be conducted in Fayette County and will be opened to providers in the states of Georgia and Alabama and the region.

What action are you seeking from the Board of Commissioners?

Permission to proceed with the application for the Federal Fire Act Grant.

If this item requires funding, please describe:

The Federal Share of the Fire Act Grant will be $76,430, or 80%. The remaining 20%, $19,107, will be Fayette County's Share. The County's Share will be funded from the FY2009 Fire and Emergency Services Operating Account.

Has this issue come before the Commissioners in the past? No

If so, when?

Do you need audio-visual for the presentation? No

Back-up Material Submitted? Yes

SCBA-HAZMAT AND CONFINED SPACE MAZE SYSTEMS

The SCBA Maze System is designed for many various types of simulations. The structure includes our one of a kind reconfigurable maze system with tunnels, ramps and obstacles. The removable and reconfigurable system can be changed in a matter of minutes making it virtually impossible to memorize. In addition the simulator has a second level with mini panels, 24" manholes with sewer pipe configuration, shoring prop, roof access ladder and attachable roof top tanker or culvert prop.

The maze system allows you to adjust the degree of difficulty in the configurations from basic to whats been called by instructors and firefighters to be " The most versatile and stressfull maze system they have ever experienced".
