COUNTY AGENDA REQUEST

Department:	Fire and Emergency Services	Presenter(s):	Allen McCullough
Meeting Date:	Thursday, August 9, 2012	Type of Request:	Consent

Wording for the Agenda:

Approval of staff's request to submit an application to Coweta-Fayette Trust, Inc. for a Coweta-Fayette EMC Operation Round Up Grant, in the amount of $2,007.83, for the purchase of a mobile sound system, and authorization for the Chairman to sign the application and any related documents contingent upon the County Attorney's review.

Background/History/Details:

The Department of Fire and Emergency Services operates a Fire Safety Program that educates the local community, schools, senior citizens, and others about fire safety, home safety plans, the importance of working smoke detectors, and fire extinguishers. Although the program is already effective, it is thought that a mobile sound system would greatly increase the program's effectiveness since it would allow the audience to easily hear throughout the program. Staff will seek bids through the standard process, however, it is estimated that the cost of the mobile sound system is $2,007.83.

Coweta-Fayette Trust, Incorporated offers grant opportunities through Coweta-Fayette EMC's Operation Round Up. The Fayette County Department of Fire and Emergency Services would like to apply for a grant from Coweta-Fayette Trust, in the amount of $2,007.83, in order to pay for the mobile sound system in its fire safety programs.

This grant does not require any matching funds.

REQUEST

State purpose of Organization/Agency Request: (Please list amount of request and specifics of how funds will be used.) Copies of bids/estimates, invoices, project description/plans, etc., supporting your request MUST be attached.

The goal of the Fayette County Department of Fire and Emergency Services application is to request $2,007.83 in funding from the Coweta-Fayette EMC Round Up Grant. The funds, if awarded to Fayette County would be used to purchase a sound system that will be used to go out into our communities and surrounding jurisdictions high hazard areas and neighboring communities to spread the word of fire safety to schools from Pre-K through the 12th grade and our senior citizens as well. The sound system would allow Fayette County Fire and Emergency Services to go out into the community and put on our Fire Safety Program that covers fire safety, home safety plans, learn not to burn, the importance of working smoke detectors and fire extinguishers. Also, we have Fire Safety Clowns that are a big part of the program, which put on skits and perform a puppet show for the audience. The aid of a sound system would greatly increase the effectiveness of the program and would allow the audience to hear the program loud and clear.

List other sources of funding for use of request as described in the above:

There is no other sources of funding being sought after at this time.

REQUEST

How are agency's programs measured for effectiveness?

The department will show the effectiveness of the program through our Third Grade Fire Safety Program where we come in contact with over 800 Third Grade students. The Fire Safety program requires the students take a fire safety test. Also we will be monitoring our fire loss and fires set by juveniles along with fire related deaths in Fayette County. Our goal is to show a steady decrease in the aforementioned fire issues through our aggressive and comprehensive Fire Safety Program.
