The James Waldrop Chapter of the Daughters of the American Revolution presented the Board with a certificate of award recognizing the Board's outstanding work promoting the United States Constitution. A copy of the request, identified as "Attachment 1", follows these minutes and is made an official part hereof.

B. Proclamation recognizing September 19, 2009 as “Honor Flight Fayette Day”.

The Board of Commissioners and Director of Community Development Pete Frisina recognized employee Steve Tafoya who has earned certification as Master Code Professional. A copy of the request, identified as “Attachment 3”, follows these minutes and is made an official part hereof.

PUBLIC COMMENT:

Donald Fowler: Mr. Donald Fowler, a resident of Hood Road, thanked Commissioner Lee Hearn for meeting the residents of Hood Road, for visiting the proposed Hood Road Bridge site, and for confirming the residents concerns. He said the invitation stands for the Commissioners and Public Works employees to visit the site and that the residents would be glad to speak to those who are interested. He wished the Commissioners had more time to review the proposed SPLOST projects before they were placed on the November 3, 2009 Referendum.

Richard Price: Mr. Richard Price, a resident of Hood Road who lives east of the proposed Hood Road project, presented a packet to each Commissioner providing information, pictures, and concerns about the proposed project site. He also thanked Commissioner Hearn for coming to Hood Road and hearing the concerns of the residents. A copy of the packet, identified as “Attachment 4”, follows these minutes and is made an official part hereof.

Bob Ross: Mr. Bob Ross commented on the August 28, 2009 judicial proceeding and subsequent ruling concerning Commissioner Robert Horgan and the attempted recall election. He explained that, despite the ruling, not much has changed. He gave an outline of those conditions which have not changed and then spoke about the conditions which have changed. He noted that it is on record that Judge Baldwin found Commissioner Horgan committed an act of misconduct in office and violated the Georgia State Code of Ethics. He concluded that the proverb from French novelist Alphonse Karr was correct when he said “The more things change, the more they stay the same”.

Gene Key: Mr. Gene Key, a resident of Hood Road, thanked Commissioner Hearn for meeting with the residents of Hood Road and listening to their concerns. He recalled an email he read recently about elected officials who will do or say anything to get a vote and then will do as they will without listening to their constituents, but he thought the current Board of Commissioners was willing to listen to the citizens and listen to reason. He explained that the proposed Hood Road project is a waste of money and he would not want to have a “bridge to nowhere” located in Fayette County. He concluded that if the Board had more time to review the list of projects before a vote authorizing the Referendum was required the Hood Road project would have been removed from that list.

Harold Bost: Mr. Harold Bost began saying it was unfortunate that Judge Baldwin’s ruling was based on his inability to link Commissioner Horgan’s “despicable behavior” to his duties as a Commissioner. He added the judge made it clear that Commissioner Horgan’s behavior violated the State’s and County’s Code of Ethics. He hoped Commissioner Horgan “took to heart” the judge’s words, and he hoped the judge and prosecutor in Commissioner Horgan’s criminal case will take Judge Baldwin’s suggestion to make resignation from the Commission seat a condition of any probation they may give. He referred to Commissioner Horgan’s statement that he was happy with the ruling since it would save the taxpayers the cost of a special election, but he said the cost to the taxpayer is the same since the taxpayer will receive nothing for the money the Commissioner is paid.

Tom Halpin: Mr. Tom Halpin spoke about a comment made at the August 12, 2009 Board of Commissioners meeting regarding the percentage of out-of-county vehicles parked at the Fayette Pavilion, and he asked if there was any documentation showing the percentage of revenue obtained from those coming to Fayette County from out-of-county to shop. He assumed, based on the number of out-of-county vehicles parked at the Fayette Pavilion after business hours, that the vehicles were driven by store employees and that the percentage of revenue obtained by Fayette County from out-of-county citizens does not equate to, and is less than, the percentage of out-of-county vehicles parked at Fayette Pavilion. Secondly, Mr. Halpin was concerned, based on a newspaper article, that Fayette County was beginning a traffic study regarding the West Fayetteville Bypass around schools. His third concern was based on another newspaper article in which Chairman Smith spoke about a college campus proposal and his statement "If you build it they will come". He asked where the land was allocated for the building of a college. He hoped the County has already allocated some property in the event the SPLOST Referendum passes, which he hoped would not occur, so it would be known where the college would be built. He added a similar problem occurred when people voted for a Bypass and later learned it would come through their houses and backyards. He concluded it did not make sense for people to be asked to vote for something that is so vague.

Commissioner Horgan moved to approve Consent Agenda Items 1-13. Commissioner Hearn seconded the motion. Discussion followed. The motion passed unanimously.

BOARD REPORTS

Letter to the Fayette County Development Authority: Chairman Smith spoke about attracting a college campus to locate in Fayette County, and he explained it is imperative for the Board to determine what type of college or university setting is desirable in the County. He informed the Board that he has had discussions with some of the mayors and it was suggested that the appropriate step may be to ask the Fayette County Development Authority to develop the criteria to be used for selecting a college, but he clarified that the intention is not to give the Development Authority any power to make a final decision on this issue. He said since the Development Authority is a body composed of individuals representing many facets of the Fayette Community, including cities and authorities, it would be a good cross-section of people to take the pulse of the County in order to develop the criteria.

He asked the Board for authorization to write a letter to the Development Authority asking it to undertake the development of the criteria for determining what would be used in selecting a college or university in order to make a recommendation to the Board of Commissioners with the caveat that the Development Authority is charged to have at least one *ex officio* member from the central administration of the School Board to help them in the effort.
