PARKS AND RECREATION

INDUSTRIAL ENGINEERING "A-LINE PRODUCTION"

During the Industrial Engineering classes, students use the Engineering Design Process to design, create, test and refine efficient systems for production. Students explore fundamental concepts of industrial engineering such as: assembly lines, safety, and stamping, sorting and distributing materials. Students see just how fun and creative industrial engineering can be as they create their own ice cream factory and 3D copies of designs.

Day: Wednesdays
Date: March 8 – April 12
Time: 4:30 p.m. – 5:30 p.m.
