**NEW BUSINESS:**

6. **Consideration of the Selection Committee's recommendation to appoint Darryl Hicks, Pat Hinchey, Margaret Laton and Todd Strickland to the Fayette County Development Authority for four year terms, with said appointments beginning April 10, 2014 and expiring April 9, 2018.**

Commissioner Barlow moved to approve the Selection Committee's recommendation to appoint Darryl Hicks, Pat Hinchey, Margaret Laton and Todd Strickland to the Fayette County Development Authority for four year terms, with said appointments beginning April 10, 2014 and expiring April 9, 2018. Commissioner Oddo seconded the motion.

Ms. Dawn Oparah expressed some concern and asked questions about the appointments. She pointed out that four positions were posted for people to apply for, but five positions were being appointed. She said she did not see where the fifth advertisement was advertised, and she asked if that position had been posted. She asked who would be the Chairman of the Development Authority. Chairman Brown replied that the Development Authority would appoint its own Chairman. Ms. Oparah expressed concern that letters of approval and letters of decline are mailed prior to the actual approval of the County Board of Commissioners, and she thought sending the letters prior to formal Board vote for approval would leave virtually no room to appoint another applicant should additional information be discovered in the interim between the letters being mailed and the vote to appoint taking place. Ms. Oparah recommended that letters be sent out after the Board made its vote to appoint to positions, just in case. Ms. Oparah asked if there was a vetting process to ensure that there is no conflict of interest. She also asked, if there is a policy on this matter if it is public. She reminded the Board that she is serving on a committee concerning ethics in government, and she wanted to make sure every candidate is vetted to ensure there is no conflict of interest. She said she did not want to assume anything, but she wanted to make sure. She also asked if there was a statement that explained what constitutes what is a conflict of interest.

Chairman Brown addressed Ms. Oparah's concerns by saying the letters are received from the Selection Committee and not the Board of Commissioners. He said it was professional etiquette to let the applicants know whether or not they have been selected before they read their names in the newspaper, and that was why the letters were mailed. He stated that the applicants get the same vetting that the elected officials receive, namely, they are provided with a copy of the Ethics Ordinance and they are asked on the application and in the interview whether they have any ethics concerns related to serving in that position. He said the ethics questions are given to every applicant regardless of what board, committee, or authority they are seeking to fill. He said if the applicant or an appointed representative is found guilty of an ethics violation then they will be immediately extracted from the body they serve. Chairman Brown explained that there was a resignation from the Fayette County Development Authority, and that there were thirteen

applicants for the positions on the authority. He said he asked each Commissioner if they had any objections to going ahead and appointing the fifth member since there would be a wholly new board and a new Chief Executive Officer of the Development Authority. He stated that no Commissioner objected to appointing the fifth position, and that the applicants who responded to a public advertisement were vetted. He said the process was open and in the same timeframe as when the applicants were sending applications for a position on the Fayette County Development Authority.

Commissioner Oddo stated that the resignation came at the time that the other terms expired.

The motion to approve the Selection Committee's recommendation to appoint Darryl Hicks, Pat Hinchey, Margaret Laton, and Todd Strickland to the Fayette County Development Authority for four year terms, with said appointments beginning April 10, 2014 and expiring April 9, 2018 was passed 3-0-2 with Commissioners McCarty and Ognio being absent. Ms. Sharon Marchisello, Secretary of the Fayette County Humane Society spoke to the Board and gave a PowerPoint presentation on this issue. Fayette County Animal Control Officer Rani Rathburn also spoke in favor of the request from the Fayette County Humane Society.

Chairman Brown moved to create an exemption to Fayette County's Leash Law for the purpose of creating four test Trap / Neuter / Return sites, with the permission of the City of Fayetteville and the City of Peachtree City for their prescribed sites, with the sites being the Fayette Pavilion Shopping Center Business District area, Bryson Lane in Fayetteville, Highway 85 Connector, and Paschal and Dividend Drive Industrial area, for adequate reports are provided to the Fayette County Animal Control on a regular basis as determined by the Fayette County Animal Control Department, and for funding for the project to come through the Fayette County Humane Society. Code Enforcement Officer Kathy Hobbs spoke briefly on this matter and answered questions from the Board. Officer Hobbs reminded that this item was addressed at the April 4, 2014 Board of Commissioners Retreat. She said the ordinance contained the new regulations set forth by the Georgia Department of Public Health for Tourist Accommodations. She said the regulations in the ordinance were verbatim to the state's regulations, and she asked for the ordinance's adoption so it could be enforced through the County's Code of Ordinances.

Commissioner Oddo asked if the regulations were commonly used throughout the state. Officer Hobbs replied that regulations became effective at the state on January 1, 2014, but that the Environmental Health Department was waiting until this ordinance was adopted before it would begin its work in Fayette County.

Commissioner Barlow moved to approve staff's recommendation to adopt Ordinance 2014-06, adding Chapter 15 to the Fayette County Code of Ordinances- Public Health. Commissioner Oddo seconded the

**12. Consideration of staff's recommendation to complete design and permitting work for repairs and enhancement of Emerald Lake Dam in The Woodlands subdivision per the "Labyrinth Weir and Raise Dam" option.**

Chairman Brown informed the audience that an additional document for this item was at the dais. He said the document, consisting of the agenda request form, a memorandum, and a couple of PowerPoint slides, was provided to the Board members and could be obtained from the County Clerk's office.

County Administrator Steve Rapson provided a brief summary of this request. He stated this item was discussed at the County Retreat. He explained that it was part of the \$2 million allocation from the Board out of the General Fund to fund the Category One Stormwater Projects. He said Emerald Lake is more comprehensive than originally thought, so the request is for approval of \$1,720,000.00. Mr. Rapson, in answering a question from Chairman Brown, replied that it was more complex since the dam had to be completely redone. He said it was a single point of entry for a large subdivision adjacent to a 20-acre lake, and that a county road was on top of the dam. He said the intention was to replace a 600-foot long dam with a bridge, and to do that (based on the short-fallings of the actual structure) the County is providing long-term fixes. He reminded the Board that there were two recommendations, but that the long-term fix was the most cost effective for the foreseeable future while providing a long-term repair.

Chairman Brown stated that this effort was one of a number of stormwater issues, and that the County was trying to address the big problems first. He added that the State of Georgia requires the County to maintain the dams to state regulations, and that this effort is a step toward fulfilling those obligations. He reminded the audience that the Board had stated it would own problems and that while the problems will be addressed slowly and one at a time, the County was tackling some of the bigger problems.

Commissioner Barlow moved to approve staff's recommendation to complete design and permitting work for repairs and enhancement of Emerald Lake Dam in The Woodlands subdivision per the "Labyrinth Weir and Raise Dam" option in an amount not to exceed \$1,720,000.00 Commissioner Oddo seconded the motion.
