Commissioner Rousseau moved to approve the February 11, 2016 Board of Commissioners Meeting Minutes with the stated changes. Commissioner Ognio seconded the motion. No further discussion followed. The motion passed 5-0.

OLD BUSINESS:

- 6. Consideration of adoption of the Fayette County Ethics Ordinance 2016-04.**

County Attorney Dennis Davenport briefed the Board regarding the proposed options for the Ethics Ordinance. He stated that he was directed to bring two options on how the hearings would be conducted for violations of the Ethics Ordinance. He stated that one option was to have the hearings conducted by a panel of three county attorneys for all violations and

another option was to have the violations heard by the Board of Commissioners with the exception of a violation against a member of the Board of Commissioner, which would then be heard by a panel of three county attorneys. He stated that an issue that was discussed was to have the \$500 fee reduced to \$250 and to include the language that states, "in the current election cycle" which was included as directed. He corrected a typo on page six regarding the statement, "If a majority". He stated that the word "if" needs to be removed. He stated that Option A would include a probable cause determination to be heard by the Board of Commissioners to determine if it goes to a public hearing, unless it was a complaint against a member of the Board of Commissioner. He stated that the probable cause determination would then be heard by the county attorney panel as specified in the ordinance. He stated that Option A would be for the panel of county attorneys to handle all complaints and Option B mirrors Option A with respect to the language regarding the fee and the current election cycle. The remainder of the document also states that the Board of Commissioners would hear the complaints with the exception of those made against a member of the Board of Commissioners. The other issue is that if it is determined that there is a violation there is no language specifically stating what body would mete out the punishment. He stated that language should be spelled out in the ordinance so that there is no question of who will make the decision of what the punishment would be.

Commissioner Brown pointed out two changes. The first change was to the agenda request form under the background history/details, the fourth paragraph there is a correction to the number of attorneys stated. He stated that it should read "three" county attorneys and not "two" county attorneys. The other correction was to Exhibit A, page six, Subsection F, the word "proximally" was misspelled.

Commissioner Rousseau moved to approve Option A of the Ethics Ordinance 2016-04. Commissioner Brown seconded. Discussion followed.

Commissioner Rousseau stated that the ordinance should include language that says the attorneys are visiting attorneys and not Fayette County's attorneys. He stated that the document does not discuss compensation to the attorneys for their time and/or service when conducting the hearings. Commissioner Brown requested that the language be placed in the ordinance. He stated that what he has traditionally seen is that the "visiting" attorneys are paid the fee that is paid to their own county attorney.

Commissioner Rousseau asked if it could be done pro bono. Commissioner Brown stated that the attorneys would have to agree to do that and asked what would be their incentive to participate in the hearing if it is pro bono.

Commissioner Rousseau stated that conducting the hearings pro bono would take the process to an even higher level when adjudicating the ethical issues. He stated if the Board does agree to some form of compensation then it needs to be spelled out in the ordinance.

In addition, he asked that the Board consider reducing the number of days for a written decision to be rendered from a concluded hearing to be changed to fifteen days instead of thirty days.

Chairman Oddo asked Mr. Davenport what is typical in regards to payment.

Mr. Davenport responded that it ranges from mileage to expenses, to a per diem, it just depends.

Commissioner Rousseau agreed with a per diem and expenses to cover things like dinner because it would be an evening hearing more than likely.

County Administrator Steve Rapson stated that he has heard of having a stipend for the day. He stated that it could be tied to a hearing that has to take place. He stated that a similar process is done with the Zoning Board.

Commissioner Rousseau stated that he is open to suggestions and that he was only teasing about the pro bono; although he would like to have it.

Commissioner Brown suggested bringing this back to another meeting.

Mr. Davenport asked the Board to revisit the issue he brought up regarding who metes out the punishment. He asked if the Board was fine with it being left to interpretation as it is written or if the Board would like to have the language added to the ordinance.

Commissioner Rousseau stated that on page six, Section E, it speaks of the types of punishments that could be meted out.

Mr. Davenport replied that is correct.

The Board agreed that the county attorney panel would mete out the punishment for any hearings that they preside over.

The Board directed Mr. Davenport to investigate to determine what is the best approach regarding compensation and bring it back to the Board for consideration at the next meeting.

Commissioner Rousseau amended his motion to approve Option A of the Ethics Ordinance to include the number of days that a written decision shall be issued to be changed from thirty days to fifteen days upon the conclusion of the public hearing and that the full process would be carried out by the county attorney panel to mete out punishment. Commissioner Brown amended his second. Further discussion followed. The motion passed 5-0. A copy of the request and Ordinance 2016-04 identified as "Attachment 5," follows these minutes and is made an official part hereof.

7. Consideration of the adoption of the Generic Liability Agreement to be used for the Public Arts Committee's Human Resource Photo Wall project.

Mr. Davenport briefed the Board that he was instructed to have a generic liability agreement that could be applicable to most county projects. He stated that a generic agreement was drafted, and he credited his assistant Patrick Stough for his part in creating the draft. He stated that a memo was included as part of the package that addresses specific questions for the photo wall project as an example. He stated that he needs direction from the Board on how to handle the issues presented.

Chairman Oddo asked if this project has ever been approved by the Board of Commissioners.

Commissioner Brown stated that it had been approved on a previous agenda.

County Administrator Rapson stated that it was on an agenda and that there was a lot of discussion regarding it. He stated that he recalls that the breakroom project was approved and has since been completed, but that the Human Resource Photo Wall project had a lot of discussion, but no vote was made to move forward on this project.

Chairman Oddo referenced the minutes from that meeting and stated that the motion was withdrawn and that the motion was that Mr. Davenport would come back to the Board with language for the agreement.

Mr. Davenport added that there was a second motion that "once all the language is agreed upon" then the Board would make a vote. He stated that he did not know what language is agreed upon. He stated that he is back before the Board to determine what language is agreed upon for inclusion in Exhibit A.

Commissioner Brown stated that there is a generic agreement on the dais as part of this agenda item. He suggested that the Board vote on the generic agreement and the Exhibit A could be brought back at another Board of Commissioners meeting.

Mr. Davenport stated that he needed direction from the Board regarding what to include in the agreement. He stated that by answering the bullet points in the memo, it would give him the direction he needs.

Commissioner Brown stated that there was language that was included in the prior meeting's agenda package that he had given to the attorney that would answer most of the bullet point questions. He stated that he created an Exhibit A to use as a "straw man" document for the Board to use and make amendments as needed. He suggested that Mr. Davenport use it, vet it, and create a draft Exhibit A to give to each Commissioner and allow them to make comments and changes to the draft for the next meeting.

Chairman Oddo stated that he agreed with voting on the generic agreement, but that he would like to get the project approved before making a vote on an Exhibit A.

Commissioner Ognio stated that some of the bullet points are general for all projects and the Board needs to give the attorney an idea of what is needed "generally" and let him bring that back to the Board.

Commissioner Brown stated that an Exhibit will be needed for every project.

Commissioner Ognio stated that he understands, but for the generic liability issues addressed then it should make the Exhibit simpler to complete. He stated that for the photo project Fayette County should own the photos.

Commissioner Rousseau stated if a photographer would like to reuse the photos they could request that use from the county.

Commissioner Brown stated that would be in the Exhibit A.

Chairman Oddo stated that the template is not specific to photography.

Commissioner Rousseau stated that was an example.

Chairman Oddo stated that the questions raised from the attorney are specific to photography.

Commissioner Brown stated that if the Board would allow him, he would create a draft Exhibit A for the photo mural project, consult with each Board member, collect the comments and modify it to bring back to a Board meeting. He stated that the project would be presented with the Exhibit A as a package deal for approval.

Chairman Oddo stated that would mean involving the attorney to vet what is created.

Commissioner Brown agreed.

Chairman Oddo clarified that the Board would be approving the project and the Exhibit to the project.

Commissioner Brown stated that is correct. He stated it would be one vote to include the terms of the project as listed and the approval of the project.

Further discussion occurred.

Commissioner Ognio stated that he thought the requirements for a photo project should be included in the liability agreement.

Mr. Davenport informed that the generic agreement would be the building block for having an Exhibit A and that it would not be specific to one type of project. He stated that with these type agreements there has to be broad based language. He stated that is the purpose of the Exhibit A to address specific projects.

Commissioner Rousseau stated that if the language said, "Board authorized art projects" then it would cover each projects coming to the Board to be voted on for approval.

County Administrator Rapson stated that he agrees that the generic liability agreement is created to have as a boilerplate document for all the projects to fall within. He stated that if he understood Chairman Oddo and Vice Chairman Ognio correctly the concern is that the Exhibit A may require staff's and legal's time and effort and if it is not something the Board wants to do, then resources would have been expended on a project that the Board does not want. He stated that he does not know how to satisfy those issue unless there is a position paper presented that identifies the project and the scope of the project to determine if it something that the Board wants to do before moving forward.

Commissioner Brown stated that is a good idea and it could be done in a proposal format. He stated that as an example the Public Arts Committee is discussing a Chalk Art project where artist will come in and do chalk art on the street between the Old Courthouse and the church. He stated that he could easily submit a two paragraph paper outlining the project to be presented to the Board.

Mr. Rapson stated that would resolve some of the concern from the Chairman and Vice Chairman. He stated that in essence the Art Committee would be recreated in the way the Transportation Committee was created and one of the components is the proposal approval process.

Commissioner Brown agreed to have the information, including an example of what the mural would look like for the project ready and given to Mr. Davenport in order to be brought back to the Board of Commissioners on the March 24, 2016 meeting.

Commissioner Brown moved to approve the Generic Liability Agreement to be used for the Public Arts Committee's projects in general and that the Public Arts Committee would come back to the Board with each project individually with an Exhibit A. Commissioner Barlow seconded the motion. Discussion followed. The motion passed 5-0. A copy of the request, identified as "Attachment 6," follows these minutes and is made an official part hereof.

He stated that Governor Deal elevated his department to a State Cabinet level as a part of the Department of Health. He stated that, as for the food service and tourist accommodations they are programs being enforced and the code numbers need to be modified. The group decided on having a Kid's Zone, entertainment, food vendors and arts and crafts vendors. Mrs. Godbee briefed the Board on the estimated expenses and projected revenues for this event. She stated that the major expense of the \$64,500 is for the Balloon Meister who is the expert in the field. She stated that the group looked at how to bring in revenue from this event. There is consideration of having a minimal gate entrance fee, vendor fees, and sponsorships. She stated that a date of June 11 was set so that the Board would see the commitment to hosting this event. She stated that it would be held at McCurry Park.

Commissioner Barlow expressed his support for this event. He asked how many balloons will be used for the event.

Mrs. Godbee stated that there would be five balloons at the event based on the size of the baseball field being used for the balloons.

Commissioner Barlow confirmed that the balloons are tethered.

Mrs. Godbee stated that they are tethered.

Commissioner Barlow stated that for the first year the county may have to put in some seed money for this event.

Chairman Oddo inquired about the program.

Mrs. Godbee stated that the program would fall under the advertisement.

Commissioner Barlow asked if it will be held at night.

Mrs. Godbee stated that the balloon rides will begin in the afternoon and will be lit at night. She stressed that there will not be any balloon races and that the balloons will not leave the park.

Commissioner Barlow stated that he believes Ms. Mahaffey will be helpful with the fundraising for this event.

Commissioner Rousseau asked what is the industry standard price for the Balloon Meister's services.

Mrs. Godbee stated that an average cost is about \$1,000 to \$1,500 per balloon.

Commissioner Rousseau stated that he did not see that in the budget.

County Administrator Rapson stated that there is \$26,000 allocated for the balloons which includes the Balloon Meister's cost.

Commissioner Rousseau asked if the county will solicit for the vendors or will the Balloon Meister.

Mrs. Godbee stated that is done internally through the volunteers.

Chairman Oddo asked how long the rides last.

Mrs. Godbee stated that they last for ten to fifteen minutes and that there would be a fee for the rides.

Mr. Rapson stated that if the Board approves this event that he would like to request that instead of taking the funds from the General Fund that it come from the Recreation Project Contingency. He stated that it currently has a balance of \$466,000.

Commissioner Brown asked if there is a rain date.

Mr. Rapson stated that a rain date will be built into the planning.

Chairman Oddo stated that this event would draw attention to the county.

There was further discussion after the motion.

Commissioner Rousseau confirmed that no projects would be impacted by taking the funds from the Recreation Project Contingency.

Mr. Rapson confirmed that no projects would be impacted.

Commissioner Ognio hoped the County would break even, but that it is probably not likely the first year. He speculated that with sponsorships the county can break even.

Commissioner Barlow stated that he can assure that this will separate out Fayette County. He asked if any other counties in Georgia are doing this.

Mrs. Godbee stated that there is a huge balloon event in Kennesaw, Georgia, there is one in Calloway Gardens and one in Macon during the Cherry Blossom Festival,. There are no balloon festivals in June on the south side of Georgia.

Commissioner Barlow moved to approve to host the "Balloons Over Fayette" Hot Air Balloon Festival and authorization to utilize \$64,500 from the Recreation Project Contingency to offset expenses.
