REQUIREMENTS FOR APPROVAL OF A STREETLIGHT DISTRICT

In order for a Streetlight District to be formed, the following steps are necessary:

1. Obtain Petition Forms from the Engineering Department.

All property owners in the subdivision must be contacted and they must sign "Yes" or "No" concerning the installation of street lighting and billing by Fayette County upon their tax bills. Only the property owner's signature will be accepted. If both husband and wife are joint legal owners, both signatures will be required - a "Mr. & Mrs." signature is not acceptable. Each owner must sign individually. In the event that a property owner cannot be personally contacted, the receipt from a registered letter will be accepted. No signature may be withdrawn from the Petition after it is filed with the County Engineer's Office. The purpose of the witness' signature is to verify the property owner's signature, if in question. Percentages will be calculated based on individual lots whose owners sign affirmatively, divided by the total number of platted lots in the district.

2. The petition must contain not less than ten (10) property owners representing not less than sixty-six and two-thirds percent (66-2/3%) affirmative signatures of the property owners within the district to be established. A petition may however, be brought by less than ten (10) property owners where such represents one hundred percent (100%) affirmative signatures of the property owners within the district to be established.

3. The completed Petition is returned to this office where it is checked to ensure requirement compliance. It will be returned to the sender if it does not meet such requirements of a 66-2/3% affirmative vote. Petitions meeting requirements will be presented to the Board of Commissioners at an official Bi-Monthly Meeting for approval or disapproval. Deadline for approval is January 1, of each calendar year.

4. The representative of the group requesting approval of a Streetlight District and returning the petition to this office must also furnish three (3) copies of the approved final plat of the subdivision. These plats may be obtained from the Tax Assessor's Office located at 140 Stonewall Avenue West, Fayetteville, GA 30214.

The objective of the Fayette County Street Lighting Program is to illuminate the streets of participating subdivisions in accordance with standards of the American National Standard Practice for Roadway Lighting, 1973. It is not the objective of this program to illuminate private property.

The Fayette County Street Lighting Program will be administered by the County Stormwater Management's Office, 140 Stonewall Avenue West, Suite 203, Fayetteville, GA 30214. Telephone: (770)305-5410.

There are two power companies serving Fayette County: Georgia Power Company and Coweta-Fayette EMC. Their rates vary slightly.

In order for a Developer to have a proposed subdivision approved as a Streetlight District, the plat for such subdivision must be approved and made a part of the County's Official Tax Records.

Property owners within a street light district will be billed annually on their County Tax Bill for the previous year's use of lights. Cost for street lighting shall be set by the Board of Commissioners in consultation with the County Engineer. In all cases, the rates for a street light district shall be sufficient to cover the expenses and costs associated with the lights for that district. The charges shall be levied on a "per lot" basis.
