

## Broom Boulevard Culvert Replacement - Update

**Fayette County, Georgia - May 9, 2019** - Broom Boulevard near Chappell Road is currently reduced to one-lane for a SPLOST stormwater pipe replacement project.

This project, initially scheduled to be complete in December 2018, has been a challenge since unforeseen site conditions caused project completion to be delayed. Aside from utility relocation delays, design errors, and other utility conflicts, this area has received more than 51-inches of rainfall since August 2018. The considerable amount of rain has left the project site exceptionally saturated and nearly impossible for construction work to continue.

The delay in the expected completion is disappointing, but with recent drier weather days this project has moved forward. Concrete gutters, flumes, and guardrail installations are scheduled to be complete by next week. Slope configuration, final grading, grassing, road base, and asphalt are scheduled to be complete by the end of May, 2019.

Citizens are encouraged to visit the County's webpage to gain the latest updates on all 2017 SPLOST projects: <http://www.fayettecountyga.gov/splost-2017/>
