Knowing CPR gives you and your loved ones peace of mind no matter where you might be. Whether on a ski trip in the mountains or enjoying time together at the beach, having the knowledge to save a life brings reassurance and confidence. Statistics show that 4 out of 5 sudden cardiac arrests that occur outside of the hospital happen in the home – the place we eat, sleep, and spend time with family. Thinking through the simple steps of CPR you learn in class will help you mentally prepare to act if a real emergency occurs.

**Day:** Saturday

**Date:** August 25
