What is Beanstack?

- A way to track and log reading for adults, teens and children. You can track time read, books read and more.

- Your digital connection to reading challenges created by the Fayette County Public Library. Earn digital badges and prizes from our sponsors.

- A source of online booklists created by Fayette County Library staff.

We will offer a variety of challenges throughout the year, but you don't have to be participating in a challenge to log your reading or find recommendations. You can do that 24 hours a day, 365 days a year either with your computer or with the Beanstack app on your smart device. The app can be downloaded for your Apple and Android devices through the ITUNES store or Google Play.

The app and the website both offer unique aspects to your beanstack adventure. Here is a highlight of some of the things you can do with beanstack with info on whether these things are available on the app, website or both.

- Register for beanstack (app and website)
- Access library created booklists and events (website only)
- Log reading and activities (app and website)
- See badges earned both currently and in the past (app and website)
- See a highlight page with charts and specifics about your reading journey (app only)
- Scan ISBN barcodes to add titles to record (app only)
- Use timer to create timed reading sessions (app only)
