Subject: Request for Proposals #1082-P: Road Pavement Consulting Services

Pavement surfaces can be distressed by a number of things, including thermal changes, moisture damage, excessive loading, traffic abrasion, binder aging, loss of bonding, or other factors. An effective pavement management program can help to establish maintenance priorities, determine maintenance and rehabilitation strategies, and predict pavement performance.

The Road Department seeks to bring in a qualified company to inspect and rate 380 miles of county roads. The company will provide information including roadway classification, pavement condition and condition index score, recommended rehabilitation strategy, and estimated costs.

For this purpose, the Purchasing Department issued Request for Proposals #1082-A. Notices of the opportunity to bid were emailed to 18 contractors. Another 68 were contacted through the web-based Georgia Procurement Registry. In addition, invitations were extended via the Fayette News, the county website, Georgia Local Government Access Marketplace (www.glga.org), and Channel 23. Nine companies submitted quotes (attached). The Request for Proposals includes a cooperative provision that allows the Towns of Tyrone and Brooks to use the contract to access the same services, at the same prices, and for the same terms and conditions.

An Evaluation Committee reviewed, evaluated, and scored the nine companies. The four with the best scores were short-listed, and invited to participate in a telephone interview. Then negotiations were conducted with the four vendors, which asked for a best and final offer that included (1) setting up MicroPaver7 software with all of the generated pavement data, and (2) adequate training for staff on the new MicroPaver7 software. Evaluation scores for the four short-listed firms were updated to account for phone interview points, and negotiated prices. The Road Department recommends the highest-scoring company, Transmap Corporation, for the contract. Specifics of the proposed contract are as follows:

Contract Name:	1082-P: Road Pavement Consulting Services
Vendor:	Transmap Corporation
Not-to-Exceed Amount:	\$79,880.00
Budget:	
Organization Code:	10040220 Road Department
Object Code:	521316 Technical Services
Project Code:	LMIG5 2015 Local Maintenance Improvement Grant
Available Budget:	\$260,051.00 Available as of 7/15/2016

Approval Signature

Date:
