Subject: RFP #1082-P, Road Pavement Consulting Services – Addendum #2

Dear Gentlemen/Ladies:

Included herein is additional information and clarification for the above referenced request for proposal. Please consider all of this information when preparing your proposal.

- 1. The RFP states that the County maintains 470 miles of paved roads. The mileage identified on the Pricing Sheet is 380 miles. Does this mean that the City has some paved roads that are not to be included in the system/project?** The past 4 years Fayette County has surfaced 90 miles. These roads will be inspected by county staff upon completion of training by the successful contractor.
- 2. Is the County interested in acquiring pavement management software to use in-house as part of this project?** No; a pavement management software system is not a part of this proposal request. The county is planning to solicit for a pavement management software package at a later date.

Received by _____ Company _____
