**Subject: RFQ #27037-A FY27 Roadside Tree Pruning
Addendum #1**

Gentlemen/Ladies:

Below, please find responses to questions, clarification, or additional information for the above referenced **RFQ**. You will need to consider this information when preparing your quote.

1. Below is an aerial photo of Jenkins Road where the train track is. The measurements are not to scale but are these the trees you are looking to have removed? Just making sure I understand correctly. Remove every tree behind the guardrail all four (4) sections from the bridge over the railroad to the end of the guardrail, all the way to the right-of-way, 60' RW, 30' each way from centerline.

2. For the roads that are shorter (under a mile long), do we have to use a Jarraff tree trimmer? The county will allow contractor's discretion of whether or not to use a giraffe on the four roads listed under a mile.

3. "#8. States Completion Deadline: All work must be completed and invoiced by June 15th, 2026." Could you please tell me what the correct date of completion for this project should be? [All work must be completed by June 15, 2027.](#)
4. For Jenkins Road, will the trees need be removed and disposed of, and are we cutting all the way to the railroad track? [Yes, and the quote price should include everything needed to cut into railroad right-of-way.](#)
5. Can you please provide pricing for the previous contract? [See Attachment #1.](#)
6. Can we work on Saturday? [Yes, weekend work is allowed.](#)
