**Old Business:**

President's Meeting Review:

A list of those associations still not in compliance with regards to required documentation and safety plans was read aloud.

The board discussed ideas for how to get these associations to comply including the assessment of potential penalties ~~such as cancellation of tournaments or doubling impact fees for those not in compliance. \*\*\*\*\*(Nancy - you may want to ask Anita if she just wants a blanket statement that we discussed ideas on how to force compliance or if she's okay giving away our ideas in these minutes before she has a chance to tell the associations what we might do to them).~~

By March 30th if all required documentation is not turned in the impact fees will double. If by the end of April 30th required documentation is not submitted, then tournament participation is revoked. A motion made by Charles McCollum for above penalties was made and Terrence 2nd the motion. Motion passed 4-1. Bradley Klinger was the no vote.

Special Event Request form is continuing to be revised. Is very thorough and gives the requestor many ideas regarding their individual program they may not have thought of when planning their event.

There are many requests submitted at this time and many are from out of county who find our parks to be in better shape.
