**Subject: ITB #1781-B: Fayette County Resurfacing – FY 2019 - Addendum #4**

Gentlemen/Ladies:

Below, please find responses to questions, clarification, or additional information for the above referenced Invitation to Bid. You will need to consider this information when preparing your bid.

- 1. For the Traffic Detection Loop System bid item, how many loops and what type of loops does this include?**

There are a total of four inductive traffic loops included in this lump sum item. One at Grady Avenue and SR-54 and three at Grady Avenue and SR-85. The bid item sheets had to be revised so that the loops appear on the correct road (Grady), revised attached.

- 2. At what spread rate will the leveling be placed on these roads? Based on the mile logs, leveling will be placed on the entire road for each road, but I do not see the spread rate labeled anywhere.**

Per GDOT Specification Section 400, leveling is to be spread at a rate of 110 LBS/SY/IN.

- 3. There are no quantities for Wood Fiber for Robinson Road, so how will this Permanent Grassing be done? Can an item of Wood Fiber be added to the Robinson Rd bid form for the permanent grassing?**

Wood blankets are intended for use on steep slopes, i.e. 2:1. Robinson Road is curb & gutter, therefore use of wood fiber blankets are not anticipated. Permanent grassing shall be performed in accordance with GDOT Specification Section 700.

- 4. Can the County clarify the use of each milling item for each of the individual street bid forms? For example, Grady Avenue has 4" Milling listed on the bid form, and it has 4" Deep Patching listed on the log sheet. Is the Deep Patching listed in the log sheet a part of the Patching item or a part of the 4" Milling Item?**

The 4-inch mill line item is intended for use where 4-inch Deep Patching is called out.

- 5. Bid forms for each roadway has a fractional quantity for 150-1000 Traffic Control. The Traffic Control item is typically shown as 1 Lump Sum. Will the county revise the Traffic Control pay items to 1 Lump Sum to alleviate any confusion?**

Yes, the fractional quantity has been revised to 1.00 on each of the bid forms.

- 6. The bid forms have a pay item for 647-0200 Traffic Loop System. We are assuming this pay item is for replacement of signal loops rather than the entire system. Will the county provide a description of what the requirements are for the traffic loop system? If the intent is to replace the signal loops, the appropriate pay items would be 647-6200 Loop**

**Detector 6' x 6' Bipole and 647-6300 Loop Detector 6' x 40' Quadrupole. Currently, the signal contractors are hesitant to quote without further detail.**

The intent is to have a bid item available in the event the signal loop is damaged during resurfacing. The pay item(s) have been revised.

- 7. The contract includes 27,874 tons on 5 roadways. General Note 8 indicates that only 90 days are allowed for completing the paving operation. Will the county consider extending the paving days in General Note 8 to 120 days and the overall completion days to 180 days?**

General Note #8 and Special Provision 108.08, item #3 can be revised to show 115 days. The overall project completion is 145 days from NTP to Final Acceptance.

- 8. The bid forms have pay items for 402-1802 Patching and pay items for 432-\*\*\*\* Milling at various depths. The pay item for 402-1802 Patching includes milling for patching per the specifications. As a result, the milling items with depths which correspond with the patching would not be required. Does the county intend to pay for milling for patching as a separate item or will the items be removed from the bid forms?**

The pay item for milling with respect to patching has been removed.

- 9. On typical GDOT contracts, patching is performed prior to both milling and paving operations. Does the county intend for the patching to be performed prior to the milling and paving operations. If no, how many days will the contractor be allowed to leave the milled surface?**

The patching can be done prior to milling. The milled surface is allowed for 3 days. See General Note #11 and Special Provision 108.08 item #2.

- 10. Many of the log sheets indicate surface treatment. Will surface treatment be placed on the roadways by others? If yes, then who will be responsible for covering the surface treatment with leveling and temporary pavement markings on the levelling course?**

Although mentioned in the road logs, the surface treatment was replaced in favor of the typical 2" overlay.

- 11. General Note 31 indicates that testing shall be performed in accordance with GDOT Specifications. Per GDOT Specifications, the contractor performs testing at the plant to determine AC content and gradation only. Who will be responsible for testing on the roadway? If contractor is responsible for roadway testing, then please provide the test type and frequency.**

Material testing will be conducted by a separate contractor hired by the county.

- 12. Several roadways appear to be mill and inlay, but the bid items also include grassing. Does the county intend to grade and grass shoulders on the mill and inlay roadways?**

There is no intention to grade and grass shoulders. This bid item is provided with the assumption that there may be shoulder repair needed during the construction process.

Please Note: In conformance with newly-issued State guidance for addressing the coronavirus issue, we are in the process of making modifications for the bid opening on April 8, 2020 at 3:30 p.m. It is planned to hold the bid opening without vendors or other non-county employees physically present. Instead, we will hold a virtual bid opening, with bidders able to view the proceedings via Microsoft Teams or possibly another service. We will issue a follow-up addendum as soon as we have the particulars, including a web address you can use to view the opening.

If, for some reason, the bid opening is suspended or cancelled, all bids will be held un-opened until the bid opening is re-scheduled or will be returned to the bidder upon request.

Received by (Name): \_\_\_\_\_ Company \_\_\_\_\_

Note: If this addendum is not returned to the Fayette County Purchasing Department or if it is returned not signed, responding individuals, companies or other organizations will still be responsible for the requirements of this addendum and the specifications or changes herein.

The opening time and date for this ITB has not changed. **You must place your bid in the drop box no later than 12:00 noon on Wednesday, April 8, 2020. The formal bid opening time and date are 3:30 p.m., Wednesday, April 8, 2020.** Formal bid opening will be held in the Board of Commissioners' public meeting room. Bids must be received by the Purchasing Department at 140 Stonewall Avenue West, Suite 204, Fayetteville, Georgia at or before 12:00 p.m. on the due date.

The deadline for inquiries has passed, so the Purchasing Department will not be able to accept any additional questions after this time.

If you have questions, please contact Natasha Duggan, Contract Administrator at (770) 305-5150 fax (770) 719-5534 or email at [nduggan@fayettecountyga.gov](mailto:nduggan@fayettecountyga.gov).

Sincerely,

Ted L. Burgess  
Director of Purchasing
